ABOUT OUR COMPANY

High-End Stonemasonry & Heritage Specialists

Based in Sydney, **Superior Masonry Solutions** specializes in high-end stonemasonry, stone supply, stone cladding installation, stone retaining walls, heritage restoration, pointing works, architectural paving, and structural blockwork.

From historic restorations to modern architectural masonry, our team delivers premium craftsmanship built to stand the test of time. We partner with principal contractors, architects, project managers, and property owners across New South Wales to deliver structural longevity, authentic materials, and uncompromised site execution.

HIGH-END STONEMASONRY Architectural stone detailing, hand-dressed finishes, custom feature stonework, and precise lintel and sill installations.	STONE SUPPLY Direct sourcing of premium Australian sandstone, bluestone, granite, and select imported natural stone products.	CLADDING INSTALLATION Engineered mechanical fixing and wet-fixed natural stone wall cladding systems for exterior facades and interior features.
STONE RETAINING WALLS Durable structural terraces, dry-stacked stone walls, boulder retaining, and mortared boundary walls engineered for stability.	HERITAGE RESTORATION Sensitive conservation, precision stone replacement, structural repair, and historic architectural facade preservation.	POINTING WORKS & PAVING Traditional lime mortar pointing, flush and raked jointing, custom stone paving, cobblestone laying, and blockwork.
SPECIALIST FOCUS: TRADITIONAL LIME MORTAR & HERITAGE CARE Historic masonry demands specialized preservation techniques. Our team utilizes traditional slaked lime and hydraulic lime mortar formulations tailored to match original aggregate profiles. This ensures breathability, prevents moisture entrapment, and protects historic stone assets from the irreversible spalling caused by incompatible Portland cements.		
GEOGRAPHIC COVERAGE Sydney CBD, Eastern Suburbs, North Shore, Inner West, Greater Western Sydney, and Regional NSW.	QUALITY STANDARDS Rigorous material selection, strict joint alignment, and continuous on-site supervision by master trades.	DIRECT PROCUREMENT Transparent tender pricing, responsive scheduling, and comprehensive safety (SWMS) compliance.

PROJECT FEATURE 01

Cremorne Courtyard, Retaining & Paving

Cremorne, Lower North Shore

Scope: Design, Supply & Paving

Walling: Retaining Wall & Capping

Material: Sawn Sandstone

- **Design & Material Procurement:** Sourced dimensional stone pavers and matching masonry units.
- **Laser-Leveled Sub-Base:** Engineered precision falls with integrated brass drainage to prevent surface pooling.
- **Paving Installation:** Large-format stone paving laid in uniform broken bond with tight jointing.
- **Retaining Wall & Capping:** Constructed perimeter garden retaining wall with flush protective capping.

Craftsmanship Outcome: Flawless alignment with integrated falls, clean perimeter boundaries, and durable retention.

PROJECT FEATURE 02

Malabar Facade Cladding & Corefilled Blockwork

Malabar, Eastern Suburbs

Substrate: Corefilled Concrete Block

Style: Organic Fieldstone Clad

Joints: Client-Spec Wide Joint

- **Structural Corefilled Blockwork:** Installed and vibrated corefilled concrete blocks for curved structures.
- **Multi-Storey Cladding:** Natural fieldstone cladding installed across 2-storey architectural facade columns.
- **Curved Geometry & Steps:** Precision stone cladding wrapping radial spa features and integrated access stairs.
- **Bespoke Joint Profile:** Executed custom client specification for deliberate, uniform wide-joint mortar aesthetics.

Client Specification: Custom wide-joint profile hand-tooled with high-bond polymer-modified mortars for coastal exposure.

PROJECT FEATURE 03

Botany Bespoke Sandstone Crazy Paving

Botany, Bayside Sydney

Scope: Sourcing, In-Situ Cutting & Paving

Material: Australian Sandstone Slabs

Method: Individually Hand-Crafted

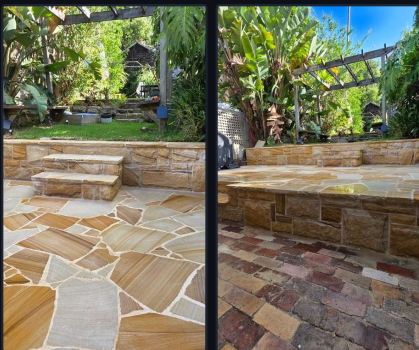

- **Raw Slab Procurement:** Directly sourced premium banded sandstone in large raw dimensional slabs.
- **Individually Hand-Crafted:** Each individual stone paver was measured, scribed, and cut on site by hand.
- **Curvilinear Geometry:** Scribed fluid sweeping radii seamlessly bordering alfresco entertaining and garden turf.
- **Flush Jointing:** Wet-bedded onto reinforced slab with uniform flush-filled mortar color-matched to stone veining.

Master Craftsmanship: 100% in-situ artisan fabrication.

PROJECT FEATURE 04

Fairlight Retaining Wall, Steps & Crazy Paving

Fairlight, Northern Beaches

Scope: Design, Supply & Installation

Walling: Rockface Sandstone & Steps

Paving: Crazy Paving & Sawn Capping

- **Design & Quarry Sourcing:** Full landscape masonry package using select Australian banded sandstone.
- **Rockface Retaining Wall:** Constructed hand-pitched rockface retaining wall with integrated dual-flight stone steps.
- **Crazy Paving Installation:** In-situ shaped crazy paving terrace surface paired with smooth sawn capping stones.
- **Structural Drainage:** Behind-wall drainage gravels and weep relief engineered for long-term earth retention.

Artisan Detailing: Hand-pitched rockface masonry creating timeless heritage appeal with durable structural seating parapets.

CORE TRADE CAPABILITIES

Comprehensive Stonemasonry & Construction Scopes

Superior Masonry Solutions delivers complete end-to-end subcontract packages—from direct quarry sourcing and structural substrate preparation to bespoke in-situ dressing and certified installation. All trade packages comply with Australian Standard specifications.

Stone Supply Scope 01 Direct quarry procurement and supply of premium Australian and imported natural stone products for commercial and residential applications. • Materials: Sandstone, bluestone, & limestone. • Processing: Sawn-cut dimensional stone, split-face blocks & custom profiles. • Logistics: Color-matched batching, bulk pallets & direct Sydney site delivery.	Stone Cladding Installation Scope 02 Engineered facade cladding and architectural feature wall installations utilizing advanced mechanical anchoring and polymer wet-bed systems. • Substrates: Concrete, corefilled blockwork, masonry. • Styles: Random ashlar, crazy cladding, stacked stone & pitched veneer. • Joint Finishes: Architect-specified raked, flush or bespoke.
Stone Retaining Walls Scope 03 Engineered earth retention systems, boundary retaining walls, and tiered garden terraces built for superior structural integrity and visual presence. • Systems: Hand-pitched rockface sandstone, gravity boulder & mortared walls. • Components: Integrated access stairs, return pillars & sawn protective capping. • Drainage: Behind-wall agg-pipe, gravel backfill & hydro-relief weep holes.	Heritage Restoration Scope 04 Specialist conservation and rectification of historic sandstone fabric adhering strictly to the Burra Charter and heritage guidelines. • Stone Rectification: Precision indenting, patch repairs & matching replacements. • Remediation: Salt crystallization treatment, spalling repair & structural pinning. • Conservation Cleaning: Gentle steam and non-damaging chemical poultice wash.
Pointing Works Scope 05 Traditional and contemporary mortar repointing utilizing natural hydraulic and slaked lime mortars to maintain structural breathability. • Formulations: Non-Portland lime mortars preventing historic stone damage. • Profiles: Flush joint, ruled heritage joints, tuckpointing & weather-struck. • Joint Preparation: Dustless mechanical raking and deep joint clearing.	Paving & Capping Scope 06 Precision horizontal masonry and landscape hardscaping, spanning in-situ artisan crazy paving to large-format sawn stone flagging. • Installations: Hand-scribed crazy paving, dimensional flagging & cobbles. • Capping: Sawn terrace capping, bullnose edges & rockface finishes. • Engineering: Laser-leveled surface falls, integrated brass drains & slurry beds.

TRADE QUALITY ASSURANCE & COMPLIANCE GUARANTEE

Every trade package executed by Superior Masonry Solutions is managed under site-specific Safe Work Method Statements (SWMS), certified scaffolding, silica dust extraction controls, and full workers compensation and public liability insurance. We provide comprehensive manufacturer warranty compliance and builder defect-liability sign-offs upon completion.
